

# Monday, May 16th, 2004

## Meeting Log

### **Purpose: Weekly Project Status Update Meeting**

Time: May 16th, 2005 2:30 PM

Location: CSSE Conference Room

Secretary: Brandi Soggs

Present: Brandi, Jason, Jonas, Steven

Guests: Dr. Salman Azhar

### **Status:**

Gnomedesktop.org article – Jonas, Jason working on it on Tuesday

Osnews.com article – also on Tuesday

\* be sure to submit to Steven and Brandi so we can look over it

Project Plan – on Tuesday

Steven- could not connect to the box. 0.42 wants a library, will work with Jason

- it wants the libraries in a funny directory, like user/local/bin rather than the default place

Adding screen shots to User Manual

Software manual is good

Test Plan and Usability Analysis Plan is good

Maintenance Plan is good

Ask Ted if he's okay with the maintenance plans

Salman made fun of Open Source projects!

### **Presentation Discussion:**

We love the poster. It's the coolest poster we've ever seen. Nothing needs to be changed.

Salman likes more color

More crayons?

### **Salman:**

Nice Agenda. More color

Happy graduation.

Hopefully you learned a lot from this project. If not, tell us why.

Teams seemed to want to the senior project decision made later in the quarter  
(rather than at the time of the internal expo)

Teams seemed to want professors other than their advisor in the project

Concern with choosing projects so soon

### **TODO:**

Ask Ted if he's okay with the maintenance plans (Brandi)

Add borders to the poster (Brandi)

Articles (Jason, Jonas)

Presentation 10:30 Wednesday
